- 20 Designer: Studio Hop  
Address: 810 Hope Street  
Meter #: 2 hour parking

# PARK(ing) Day Providence

The Rhode Island Chapter of the American Society of Landscape Architects (RIASLA), and the Rhode Island Chapter of the American Institute of Architects (AIAri) have worked together with the Hope Street Merchants Association, the City of Providence, the Downtown Improvement District, and the Department of Public Works to bring PARK(ing) Day to Providence, Rhode Island.

Originating in 2005, PARK(ing) Day was initiated by Rebar Art & Design Studio. Rebar was an interdisciplinary studio in San Francisco that combined art, design, and ecology to create objects, spaces, and ideas that inspire people to re-imagine the environment and their place in it. PARK(ing) Day is now an annual worldwide event where artists, designers, and citizens transform metered parking spaces into temporary public parks. PARK(ing) Day celebrates and strengthens our connection with nature, our sense of community, and enhances the overall public awareness about the importance of including green space in our urban environment.

## About RIASLA

Founded in 1899, ASLA is the national professional association for landscape architects, representing more than 15,000 members. The Society's mission is to lead, to educate, and to participate in the careful stewardship, wise planning, and artful design of our cultural and natural environments.

## About AIAri

Founded in 1875, AIA Rhode Island, the local chapter of the American Institute of Architects, is an organization of architectural design professionals dedicated to enhancing the quality of our built environment, and thereby the quality of life. To find out more, visit [www.aia-ri.org](http://www.aia-ri.org).
